DEMOCRATIC NOMINEE FOR SHERIFF OF JEFFERSON COUNTY.

W. A. ELLIS.

LOUISVILLE, KY.
TUESDAY MORNING, JUNE 16, 1903.

TAKE THE BACK TRACK—Some time ago, the New York Chamber of Commerce passed resolutions recommending our government to accede to the proposition that it be left in the hands of government to settle and report on the policy of the former resolution was adopted. This is no doubt wise. The government is familiar with such questions, views them in a national aspect, and in their effect upon the general interests, not upon particular classes. The United States will never give up the right of employing slaves, while other nations grant slaves on hand sufficient to blockade all our ports and cut off all our commerce. The whole system and policy of naval warfare change before the eyes, and will be surrendered by this country.

Our friends Jennings & Howard have purchased the Star Hotel on Main, and are prepared to take all kinds of pictures at all prices, according to quality and cases. These gentlemen are experts in their business, and their pictures are very much appreciated by the public. We do not know a gallery we would sooner trust to than with such a picture as the Star—which is the bright picture of all who have good pictures.

We are pleased to see the business of our old friend Vineyard & Crider increasing at such a rapid rate. Consignments are pouring in upon them from every quarter, which is a guarantee that they are reliable and thoroughly business men. Mr. H. B. Clifford, a well known merchant for many years in this city, is in the house, and consignments may be sent with confidence to him. We commend the house to the trade.

We are happy to learn that Mr. Walker Chambers, the engineer who was so badly scalded, and otherwise injured, by the explosion of the locomotive on Wednesday last, was much improved on Saturday, when we last heard from him, and his physician and friends now have strong hopes of his recovery. The scalds are not as severe as at first supposed, and in other respects, though seriously injured, the wounds are not considered mortal.

On Sunday Philip Dyer was lodged in jail charged with committing a rape on Mrs. Wilhelmina Hyderman, who resides on Market street, between Brook and Floyd. The husband of Mrs. H. has been in feeble health for some time, and was assisting him by selling oranges in the street. Dyer, after committing the alleged rape, assaulted the husband.

QUICK WORK—The Boston Advertiser says: "A young merchant of this city received on the 10th inst., by the Grand Trunk, an invoice of goods which left Louisville, Ky., 30th inst., and on the 11th inst. he returned with the account of sales, which he needed by the 12th inst. in order to place the goods left for sale."

Fifty per cent. is worth saving by attending the great sale which takes place this morning at L. Kahn & Co.'s house, No. 404, Main street. The variety of goods is great. The benefits to country and city dealers are sure, as L. Kahn & Co. are authorized to place the consignments. For particulars see advertisement.

The spacious and finely finished brick building on lot on corner of Main and Market, advertised by Mr. C. C. Spencer, at auction, will be perpetually sold, we are advised, this afternoon on the premises. This is a good chance for some one in want of a fine residence to get a good bargain.

E. H. Butler & Co., of Philadelphia, have issued a third or intermediate book of geography by S. Augustus Mitchell. It is in quarto form, with good maps, and is well adapted to the purpose for which it is prepared. Mitchell's geographies are among the best books of the kind published in this country.

The Nashville Fire Department are about to issue a new book on the subject of fire fighting, and the project of publishing in case the city purchases two steam fire engines and institutes a paid department. We advise the Nashville men to be careful. Two steamers are worth a down land horse-power.

It is rumored in New York that the Rev. Henry Ward Beecher, in addition to his duties as preacher, lecturer, and politician, is about to resign the editorship of his new daily paper, to be issued about the 1st of August. It is an evangelical sheet, but under what name is not yet divulged.

LOUISIANA, 20th—Held on the Point over the body of John Henson, free man of color, aged 55 years. Verdict—"Came to his death suddenly on the evening of the 17th inst., from drunkenness and general debility."

J. M. BUCHANAN, Coroner.

Dr. Rev. Joseph C. Tallott, Bishop of Nebraska and the Northwest, has been on his way for several days, visiting his old friends and former parishioners. He preached Sunday morning in Christ Church and last evening at St. John's.

During a storm a few days since, the store of John Jennings, on Clark street, Hopkins county, was struck by lightning and burned to the ground. The stock of goods was totally destroyed, upon which there was no insurance.

We have discovered a new evidence of the congeniality of the Japanese and American people. It is highly probable that an old Jap, who descended from some wandering Tycoon who visited this country at an early day.

Mr. Wm. Wilkes offers his entire stock of China, glassware, queensware and hardware, the unexpired lease, the fixtures, etc., of his business stand, all for sale at a bargain. Read advertisement for particulars.

The race horse Goodwood, by Lexington, which was the three mile race at Lexington, in 1898 and 1899, was purchased from Wiley & Ward by Judge Hunter, of Ala., a few days previous, for \$1,750.

There is a class of men like nudes, a cross between a noble animal and an ape, and thus more the latter affecting the former, who despite them as inferiors and toddlers.

While the weather is so warm, ladies going to Europe for pictures of their children should go early in life. Remember the place—former Harry Gallery.

Mr. G. S. Furness, the gentleman who robbed and compromised Mrs. Woodworth, of New Orleans, has been arrested for stealing a horse and buggy at New York.

We are requested by the proprietors of the Louisville Hotel to say that the sale of Poles advertised to take place at their hotel will not transpire.

There will be a grand Marine celebration at Shropshire, Ky., on the 29th inst., and also a social party in the evening at the same place.

There will be a meeting of the Engineers' Association at the Relief Engine House on Wednesday evening.

Woodlawn Trotting and Pacing Races

FIRST DAY.

The present meeting is one of the finest ever held in the United States. Not less than 100 horses present, entered for the various races, and a magnificent program of events. Many of the horses are of the first class, and few figures will be touched here the meeting is over. Trotting is eminently American. The course is the roughest as well as racetrack, and is a practical, useful horse, as well as a means of pleasure and excitement. A trot is scarcely less exciting than a running race. It is a contest between powers and endurance of quite as legitimate a sort as are required by races. There is just as careful training required and care to be exercised to enable horses to trot fast and true. The same, or greater, skill is required to bring out the speed in trotting as in running, and trotting horses, to us at least, fully as interesting as any other.

Yesterday was propitious in every respect, though terribly hot. There was a goodly number of spectators, and many of the horses were wished to see, and we assure the best they lost a trot. The track was in the best condition possible, and the horses generally in capital condition for going.

The first race was for a purse of \$250 for all ages, for which had never gone for money in public, mile heats, best three in five. Three horses were entered. A. J. Daniels' gray mare did not start, and Wm. Wood's "Abby," of Cincinnati, won in three straight heats, in 2:30, 2:27, and 2:37, having everything her own way. We repeat a summary.

The Mail—A few days ago we published an article concerning the present system of transportation of the mail by railroads, which indirectly blamed the Louisville and Chicago railroad. We learn from the records of the company that from February 14 to June 15, 1899, 224 trains have arrived at the New Albany depot. There have been delays of over thirty minutes if over, been known. Many of the horses are of the first class, and few figures will be touched here the meeting is over. Trotting is eminently American. The course is the roughest as well as racetrack, and is a practical, useful horse, as well as a means of pleasure and excitement. A trot is scarcely less exciting than a running race.
